

## Course

# #028 CRANE OPERATIONS & RIGGING SAFETY REFRESHER

This course promotes crane safety awareness and the understanding of industry, OSHA, and NASA standards and regulations pertaining to overhead crane operations.

This course serves as a refresher in overhead crane safety and awareness for operators, riggers, signalmen, supervisors, and safety personnel and to update their understanding of existing Federal and NASA standards and regulations related to such cranes. Areas of concentration include: general safety in crane operations, testing, inspections, pre-lift plans, and safe rigging.

### Target Audience:

- Crane Operators
- Supervisors
- Signalmen
- Others Involved with Cranes and/or Material Handling at NASA Facilities
- Safety Personnel
- Riggers

### Dates:

July 20, 2006

8:00 – 12:00

Location: MSFC

Building 4200, Room G13E

Instructor:

Tim Evans

Tim Evans, has spent 25 years in the Pulp & Paper Industry with experience in quality, training, safety, forecasting, advising, and planning. Certified in the following: Crane Training Instructor, Scaffold Instructor, Fall Protection Instructor, Forklift Operators Instructor, Department of Transportation in Hazardous Chemicals, Ergonomics Specialist, DACUM Facilitator, ISO 9000 Coordinator, Self Directed Team Development, and TQM Systems.
